

Name:

Pre-project Planning and Goal Setting Form

What part of the project do you think will be the biggest challenge, and why?

What steps can you take to make this challenge go smoothly?

What do you hope to do especially well in the debate?

How much time do you expect to need to prepare for the debate? This can be stated in time/day or total time.

What materials do you need to have with you during the debate? (map, figures, research notes, paper to take notes, pencil)

Post-project Reflection for the Best Climate Science Debate

Statement	Very true	Somewhat true	Neutral	Somewhat untrue	Very untrue
I referred to the science content often to help me prepare for the debate					
I spent at least as much time preparing for the debate as I planned, and I was prepared					
I used my plan to help me with the challenging part of the work					
I persisted in finding solutions to any problems I encountered during the preparation phase					
I made or found helpful visuals to help me explain my content well					
I checked the project requirements several times to make sure I had completed all of the steps					
I feel that I performed well in the debate					

Two important things I learned by doing this project (besides the science content):

- 1.
- 2.

What I most improved at during this project:

What I want to work on for future projects:
